

Stem Cell Video Review

Name: _____ Date: _____ Class: _____

In this assignment you will be creating a short video review of one of the stem cell videos viewed in class. You can choose to do a written piece (maximum 250 words) or a multimedia presentation (e.g., PowerPoint, video - maximum 3 minutes, podcast - maximum 3 minutes, other – ask the teacher). Your video review must:

Inform:

Include information about who made the video, the type of video (e.g., interview, animation, etc.) and where it can be viewed

Describe

Explain the purpose of the video, what the video is about and the main message of the video

Analyze

Provide an opinion on whether the video is good or not and why and describe what you learned from the video

Advise

Recommend whether another student should watch the video and why, and give the video a rating out of five stars (1 is worst, 5 is best)

Also required

- Correct spelling, punctuation and grammar (no text short forms)
- Appropriate and correct use of vocabulary

Use the summary chart below to get organized.
